

Presentation of the Training Programme on Technical and Professional Education, for Teachers and Educational Managers and Principals in Angola.

School of Training of Health Technicians of Luanda.

Luanda, June 2, 2016 (Thursday), 09:00 - 13:00.

The “Training Programme for Teachers and Educational Managers and Principals in Angola – 2016” is the result of a partnership between the Ministry of Education of the Republic of Angola and Focus Education, a subsidiary of the Mitrelli Group.

This training programme is intended for teachers and educational directors and principals of the professional and technical education subsystem. The project’s collaborative design involves officials from the Ministry of Education, particularly the National Directorate of Professional Technical Education and also the Directorates and Coordination of institutes, which will host the training.

This innovative programme involves 1,440 teachers and 580 directors and school principals. The teachers who will participate in the training will come from technical schools across Angola will have at their disposal a wide range of training actions, tailor-made for the different areas of training offered by the Technical-Professional Education, with a strong didactics component for innovative management of the curriculum in the classroom, and a strong component of practical application, technical and technological. Directors and School Managers will also participate in seminars and training meetings on relevant themes and innovative solutions for a continuous updating and qualification of their practices.

The programme, presented in Luanda by the Coordination Team Training of the Ministry of Education and Focus Education, was chaired by The Secretary of State for Training and Technical and Professional Education, Dr. Narciso Benedito.

In addition to the presentation of the training programme, the meeting in Luanda included a discussion on curricular priorities, methodologies used, and how to promote the motivation and the commitment necessary for the directors to select the participants and motivate them for active participation in the programme.

Present in Angola for more than 20 years, Focus Education offers integrated solutions in the field of education and training with qualified and

innovative answers that promote a continuous sharing with the local education authorities. Responsible for the Reform of the Technical and Professional Education in Angola, as well as for the development of other large-scale projects in education and training in Angola, Focus Education has contributed and continues to do so in different institutional partnerships with solutions major impact on the country's growth.
